

# VRUSHALI R. DAWARE

Pune, Maharashtra – 411027 | +91 8329707653 | [vrushali97daware@gmail.com](mailto:vrushali97daware@gmail.com)  
[linkedin.com/in/vrushali-daware-2a6a08138](https://www.linkedin.com/in/vrushali-daware-2a6a08138)

## PROFESSIONAL SUMMARY

- Overall 4+ years of experience in Robotic Process Automation as RPA Developer.
- Experienced in building RPA Solutions using Blue Prism and Automation Anywhere.
- Involved in all phases of the Agile SDLC process from Analysis, Design, Development, Testing, Deployment, and maintenance of automations with timely delivery against aggressive deadlines.
- Experienced in determining RPA best practices and enhancing the existing process to optimize the results.
- Hands on experience in working closely with Process SME's to create PDD (Process Definition Document), and SDD (Solution Design Document).
- Familiar with Blue Prism suite of products, including Decipher IDP, Interact, Digital Exchange, and Intelligent Automation Skills.
- Experienced with various MS Office suite like MS Word, MS Excel, MS PowerPoint, MS Outlook, and MS Visio.
- Designed automation solutions for various Desktop Applications, Web-based Applications and SAP Applications.

## SKILLS

- Automation Tools : Blue Prism (v6.10), Automation Anywhere (v11.0)
- Languages : C#, SQL, Java
- Databases : SQL
- Web Services : REST
- Other Tools : GitHub, ServiceNow, Postman

## WORK EXPERIENCE

### RPA DEVELOPER | Labcorp Drug Development, Mumbai Dec 2021 – Present

#### RESPONSIBILITIES:

- Involved in gathering Business requirements, creating User Stories, Functional Requirements (FRs) and analyzing the effort estimation for each FRs.
- Developed 12 Blue Prism solutions (bots) for automating business processes which involved Browser, Windows, Mainframe and Desktop applications.
- Good knowledge of Blue Prism Process and Object Studio to create new process, objects and modify existing ones.
- Worked on different spying modes like Browser, Windows, UI, Active Accessibility, and Region mode.
- Experienced in using Blue Prism Control Room for managing sessions, work queues, creating and running Scheduler.
- Experienced in using Blue Prism Credential Manager for maintaining, securing, and retrieving user credentials.
- Proficient in developing process flows (flowchart diagrams) using MS Visio.
- Worked on Postman to create and test different API endpoints and then add to Blue Prism Web API Services.
- Streamlined 5 existing processes by integrating API web services, standardizing exception handling, and optimizing the code.

- Worked on Application Lifecycle Management (Micro Focus ALM) tool for managing system development and testing processes including requirements and traceability, test planning and execution.
- Performed peer code reviews and closely monitored the deployed bots in Hypercare.
- Demonstrated the implementation of Bots to the clients post completion of development activities.
- Efficiently handled Incidents and Change Requests in ServiceNow (IT Central) and resolved them within timelines.
- Coordinated application installations, testing and code corrections to configure the Production machines.

## RPA DEVELOPER | Tata Consultancy Services, Nagpur

### Jul 2019 – Nov 2021

#### RESPONSIBILITIES:

- Worked closely with business team in understanding and defining the requirements.
- Analyzed Process Definition Documents and created process flow for developing Blue Prism automation solutions.
- Designed and developed the Automation Anywhere bots to automate manual, repetitive, rule-based and high-volume processes.
- Implemented end to end automation solutions as per requirements which involved Analysis, designing, development, testing and deployment of automation.
- Prepared test cases, debugged the processes and validated the results of deployed bots.
- Optimized existing processes and implemented tweaks to make existing bot robust.
- Developed Blue Prism bots involving multi-bot architecture, web-based unattended processes, having good knowledge of Process Studio and Object Studio.
- Experienced in different application spying modes like Browser, Windows, UI, Active Accessibility, and Region mode.
- Experienced in creating and managing schedules to run the Bots at scheduled intervals.
- Reviewed change requests from clients and fixed bot issues raised by ServiceNow incidents.
- Communicated with business team for understanding and fixing the issues.
- Delivered demonstrations to client explaining the advantages of bot over traditional approach.
- Identified failure modes of the bot and implemented solutions for the same.

## EDUCATION QUALIFICATION

### BACHELOR OF ENGINEERING (COMPUTER ENGINEERING) | 2019 | CGPA 8.88

- *Savitribai Phule Pune University*

## CERTIFICATIONS

- Automation Anywhere certified Advanced RPA Professional (v11) in Oct 2021
- Achieved Microsoft Azure AZ900 Certification in June 2021
